Appendixes	25
List of Tables	25

Introduction

This document presents the REST API documentation for the *WroclArts* system, compliant with OpenAPI 3 standard for the second laboratory of "Information Systems Modelling".

The `openapi.yaml` and the source code (modified from *StudentsApp* provided for the laboratory) are available at: <https://github.com/MaximeLuce/WroclArts>.

The section 1 presents the correspondence between the Software Requirements Specification (SRS) and the OpenAPI documentation. The section 2 contains the full `openapi.yaml` file.

The Swagger-UI can be seen at <http://localhost:8080/WroclArts/swagger-ui/index.html> once the application is launched (see the README file).

1 Correspondence between SRS and OpenAPI

Table 1: Correspondence between the Software Requirements Specification and the OpenAPI.
Each requirement has a code, a description and a specific endpoint in the OpenAPI.

Requirement Code	Description	OpenAPI endpoints
UR-01	Map Exploration (Interactive geographic map of Wrocław).	GET /events
UR-02	Event Filtering (by art category, date, and distance).	GET /events (via query parameters lat, lng, radius, category and date)
UR-03	Keyword Search (for specific events, organizations, or artworks).	GET /events (via query parameter keyword)
UR-04	User Registration (create a personal account).	POST /users/register
UR-05	User Information (pop-up for unregistered users).	<i>Frontend implementation only</i>
UR-06	Contact (contact the Administrator through a form).	POST /support/tickets
UR-07	Event Registration (book a ticket or reserve a spot).	POST /events/{eventId}/tickets
UR-08	Waitlist Management (join a waiting list for fully booked events).	POST /events/{eventId}/tickets
UR-09	Merchandise Purchase (purchase artworks or merchandise).	POST /orders
UR-10	Local Payment Methods (BLIK, Przelewy24, PayU).	<i>Handled by external Payment Gateway API</i>
UR-11	User Reviews (leave a text review and a rating).	POST /reviews
UR-12	Wishlist / Favorites.	<i>Not implemented yet</i>
UR-13	Authentication (log in and log out securely).	POST /auth/login
UR-14	Account Recovery ("Forgot Password").	<i>Not implemented yet</i>
UR-15	Authentication (Organization login).	POST /auth/login

Continued on next page...

Table 1 – Continued from previous page

Requirement Code	Description	OpenAPI endpoints
UR-16	Account Recovery (Organization).	<i>Not implemented yet</i>
UR-17	Organization Onboarding (uploading legal documents like KRS).	POST /organizations
UR-18	Organization Roles (Owner, Manager, Staff permissions).	<i>Not implemented yet</i>
UR-19	Event Management (create, edit, remove and publish events).	POST /events PUT /events DELETE /events/{eventId}
UR-20	Event Types (in-person, online or hybrid).	<i>Handled in Event</i>
UR-21	Recurrence and Capacity.	<i>Handled in Event</i>
UR-22	Ticket Validation (scan a QR code at the door).	PUT /tickets/{ticketId}/scan
UR-23	Attendee List Export (CSV or PDF).	<i>Not implemented yet</i>
UR-24	Shop Management (adding, updating, or removing merchandise).	POST /products GET /products GET /products/{productId} PUT /products/{productId}
UR-25	Order Management (update shipping status).	GET /orders GET /orders/{orderId} PUT /orders/{orderId}
UR-26	Dashboard Analytics (statistics, tickets sold).	<i>Not implemented yet</i>
UR-27	News Management (publish updates on profile).	<i>Not implemented yet</i>
UR-28	Support (create a support ticket to Admin).	POST /support/tickets
UR-29	Account Verification (review pending organization registrations).	PUT /admin/organizations/{orgId}/status
UR-30	Content Moderation (hide or remove violating events/profiles).	DELETE /admin/events/{eventId} DELETE /admin/products/{productId}

Continued on next page...

Table 1 – Continued from previous page

Requirement Code	Description	OpenAPI endpoints
UR-31	Support Management (respond to support tickets).	POST /support/tickets
